LEADERSHIP

COOS

**Preparing Future
Leaders
for the
Bay Area
& Coos County**

**A Bay Area
Chamber of Commerce Program
Coos Bay / North Bend / Charleston**

OBJECTIVES... Leadership Coos is designed to develop (not train) leaders and to provide a comprehensive, objective awareness of our community in action. The program has been developed with the goal of acquainting participants with local aspects of the community- from city, state, county and federal government issues- via a series of topics, tours and speakers.

PROGRAMS... One day per month for nine months (September through May) participants attend seminars, tours and briefings which expose them to the issues and opportunities within our community and challenge them to become involved in decision making in political and community organizations that match their areas of interest. Sessions are led by selected leaders from both local and statewide fields that acquaint participants with a wide variety of subjects including (but not limited to) local transportation issues, emergency services, communications, education, business and industry, health and human services. Sessions may be held outdoors, you may be walking and/or sitting for long periods of time. Be prepared for weather, sessions will be held rain or shine.

WHAT THEY'RE SAYING...

The Leadership Coos Program is a very good program for anyone new to the community. I found that it put me in touch with many programs and contacts in the community that I would not have likely found if I had not attended. I recommend the program for anyone looking to expand their knowledge of the Coos community and the rich history of the area.

- Ivan Thomas

I truly enjoyed my experience with Leadership Coos. Overall I thought it was informative, and an excellent networking opportunity. The chance to travel around the county doing interesting things with awesome people, and eating great food, was generally a pretty good time.

Ben Crowell

What an incredible experience to participate in! Each session was informative and truly fun. The relationships and business connections formed add the elements to make this first class course, unlike any other.

Diana Knous
